Problem R-309 \((C_9H_{14}NOP)\). Interpret the 100 MHz \(^1\text{H}\) NMR spectrum below. The phenyl region is not shown. \(^{31}\text{P}\) signifies decoupling of the phosphorus signal (Org. Magn. Res.. 1980, 13, 165)
Problem R-309 \((C_9H_{14}NOP)\). Interpret the 100 MHz \(^1\text{H}\) NMR spectrum below. The phenyl region is not shown. \(^{31}\text{P}\) signifies decoupling of the phosphorus signal (\textit{Org. Magn. Res.} \textbf{1980}, \textit{13}, 165)
