Getting a Job at a PUI

presented by

Spring Knapp

Spring Knapp is an assistant professor of chemistry at the College of Wooster. Spring got her Ph.D. from the University of Oregon, then took a job as a teaching/research postdoctoral fellow at Colgate University. After failing to get a job as a professor, Spring worked as a postdoctoral researcher in the Landis group at the University of Wisconsin-Madison. Following a successful job search, Spring started at the College of Wooster in 2016. Spring will discuss some lessons she learned from her first failed job search, some resources that she found useful during her second, successful job search, and a view of what the hiring process looks like from the other side.
