

ACID: Achieving Career Insight & Development

2017-2018 Seminar Series

Organized by Desiree Bates, Arrietta Clauss and Heike Hofstetter

Non-Traditional Career Path??

Presented by

Dr. Jonathan Paretsky

The paper industry would be considered by many chemists a non-traditional career path, however it is rich with opportunities for application of chemistry and its principles. Jon will speak about his transition from academia and synthetic chemistry into the realm of manufacturing where he works as a research scientist at Georgia-Pacific's Innovation Institute® in Neenah, WI, which supports the consumer products business. There he performs research and development on chemical additives and their application in the papermaking process. Georgia-Pacific Consumer Products, a division of Koch Industries, is a leading manufacturer of tissue products, including such brands as Brawny®, Sparkle®, Quilted Northern®, and Angel Soft®, as well as a large segment of away-from-home products.

November 17, 2017 at 9:30 am in room 9341

Breakfast will be provided at 9:15 am
