Instructions for Registering for Fall 2019 Courses during the Summer

Starting on June 24 until June 28 and then after July 8, incoming graduate students can register for fall courses. Please register for 8 credits in the course listed below according to your path of interest. Sign up for section 1, as this is the section for the incoming graduate students. The professor listed in section 1 is chair of the path and is not your research advisor. These courses are for research and are not lecture courses.

- Analytical, Chem 993, section 1
- Chemical Biology, Chem 998, section 1
- Inorganic, Chem 994, section 1
- Materials, Chem 996, section 1
- Organic, Chem 990, section 1
- Physical, Chem 992, section 1

FYI, you cannot register for courses after 4 pm on June 28 until 8 am on July 8 due to a system upgrade.

During Orientation, you will receive guidance about which lecture courses you should take for the fall 2019 semester. At that time, you will sign up for 15 credits. Registering for 8 credits of research in the summer will allow you to get your UW-Madison ID card as soon as you arrive on campus.
